

FULLSTACK WEB DEVELOPER

Trieu Tien Dat - 22/04/2004
256 Duong Quang Ham , Ward 5 , District Go Vap, Ho Chi Minh City
tiendat220404@gmail.com
+(84) 0354411541

Recent Web Development graduate seeking a Full-stack Developer fresher role. One year of hands-on experience in front-end and back-end development with a strong background in web design. Eager to learn and contribute in a professional environment.

MY PROJECTS

E-booking Healthcare

Member: 4 - Role: Frontend

Sep 2023-Nov 2023

- Technologies:** ReactJS, Vite, shadcn/ui, Tailwind CSS for frontend; Node.js, Express.js for APIs; Laravel for admin backend; MySQL for data management.
- Description:** Developed an online medical booking system for Diamond Medical Clinic using ReactJS, Laravel, and Node.js. The platform allows patients to register, book appointments, and pay securely online. Built an admin dashboard for managing branches, doctors, and schedules. Integrated real-time availability to prevent double-booking and a patient portal for viewing medical history and reminders. Applied MVC architecture and OOP principles for scalability and maintainability.

Coi-Shop Clothes

Member: 1 - Role: Main Coder

January 2023 - March 2023

- Technologies:** ReactJS, TailwindCSS, Redux, Axios, Framer Motion, integrated shipping fee calculation API for the frontend; Node.js, Express.js, Passport.js for the backend.
- Description:** This platform offers a seamless user experience with features including user registration, product browsing, multi-method checkout, and an e-wallet system. The site also supports multiple product categories and a dedicated admin dashboard for managing inventory and orders, ensuring efficient order processing and product management.

We-UI

Member: 1 - Role: Main Coder

May 2023 - June 2023

- Technologies:** ReactJS, Tailwind CSS, Vite for building the frontend UI using the WeUI component library.
- Description:** Developing a web interface strictly following WeUI design guidelines, focusing on building reusable, maintainable UI components without relying on third-party UI libraries. The project uses ReactJS, Vite, and Tailwind CSS to implement WeUI-styled components for mobile-friendly and consistent user experience. All UI logic and styling are custom-built to match the WeUI system for seamless integration into future projects.

Work Experience

VIETDEV STUDIO COMPANY (VDS Co.)

FullStack Developer | Sep 2024 – Present

- Developed and deployed production-level web applications using Next.js for the frontend and Django for the backend.
- Optimized SEO and performance through server-side rendering (SSR) in Next.js.
- Implemented secure user authentication, authorization, and session management using Django.
- Integrated with backend using Axios and React Query to optimize API calls and streamline frontend-backend communication.
- Customized shadcn/ui components into a reusable UI library with added variants, states, and logic to streamline development and ensure design consistency.

EDUCATION

FPT POLYTECHNIC COLLEGE, HO CHI MINH, VIET NAM
B.S. Web Development (08/2022 - 05/2024)

ACHIEVEMENTS

Won third prize in the JS' Talent contest organized by FPT
POLYTECHNIC COLLEGE

ADDITIONAL SKILLS

HTML / CSS / JAVASCRIPT / PYTHON / TYPESCRIPT

NODEJS / EXPRESSJS / DJANGO

GIT / GITHUB

PHP / MVC

NEXTJS / REACTJS

MYSQL / MONGODB
